ABOUT

Welcome to the **International Neuroscience and Brain Disorders Forum!** We are thrilled to gather together some of the brightest minds in neuroscience and related fields to explore the complexities of the brain and tackle the challenges of brain disorders. Over the next few days, we'll engage in stimulating discussions, share groundbreaking research, and forge new collaborations aimed at advancing our understanding and treatment of neurological conditions. Let's embark on this journey of discovery and innovation together!

The **NeuroForum 2025** showcased the latest research, innovations, and collaborations in the field. Highlights included keynote addresses, interactive workshops, poster sessions, and networking opportunities. Emerging technologies and therapeutic breakthroughs were spotlighted, with a focus on translating research into clinical applications. The event provided a dynamic platform for advancing our understanding of the brain and addressing neurological disorders.

The **NeuroForum 2025** featured cutting-edge research presentations, insightful keynote speeches, interactive workshops, and vibrant networking sessions. Attendees explored emerging technologies, therapeutic breakthroughs, and translational research in neuroscience. The event fostered collaboration and innovation, driving progress towards understanding the brain and improving treatments for neurological disorders.

THEMES AND TOPICS

- Neuroscience
- Memory Loss, Stem Cell approach for Neurological Disorders
- Brain Disorders
- Neurosurgery
- Psychology & Behavioral Neuroscience
- Mental Retardation
- Brain Tumors
- Electroconvulsive Therapy
- Alzheimer's Disease and Dementia
- Neuropharmacology
- Psychiatry
- Pediatric Neurology
- Brain Injury and Rehabilitation
- Stem Cell Therapies
- Computational Neurology
- Parkinson's Disorders
- Brain Diagnosis
- Mental Disorders
- Vagus Nerve Stimulation (VNS)
- Deep Brain Stimulation (DBS)
- Brain Cancer and Neuro oncology
- Neurology

HIGHLIGHTS

- **Keynotes by Industry Leaders:** Visionary neuroscientists shared insights and inspirations.
- **Research Presentations:** Breakthroughs in Alzheimer's treatment, neural interfaces, and behavior.
- **Panel Discussions on Trends:** Future of neuropharmacology and ethical considerations in research.
- **Workshops:** Hands-on neuroimaging software and AI applications.
- **Networking Opportunities:** Connections with top researchers and industry leaders.
- **Exhibition Area:** Showcased cutting-edge products and technologies.
- **Poster Sessions:** Innovative research by emerging scientists
- **Awards:** Best Poster Award
