“Innovating Tomorrow: The Future of Preventive Medicine and Public Health”

Dear Esteemed Colleagues and Distinguished Guests,

It is with great enthusiasm and anticipation that we welcome you to the **2nd World Congress on Advances in Preventive Medicine and Public Health**. This gathering represents a pivotal moment for us to come together as a global community of health professionals, researchers, policymakers, and advocates dedicated to shaping the future of preventive medicine and public health.

Our theme, ***“Innovating Tomorrow: The Future of Preventive Medicine and Public Health”***, underscores our commitment to advancing the frontiers of knowledge and practice in this vital field. Over the course of this congress, we will explore groundbreaking research, share best practices, and engage in dynamic discussions that will pave the way for transformative improvements in health outcomes worldwide. We are privileged to have a distinguished line-up of speakers and thought leaders who will inspire us with their insights and innovations. This event is not just a platform for learning, but an opportunity for collaboration and networking that will drive forward our collective mission of enhancing public health and preventing disease.

We extend our heartfelt thanks to each of you for your participation and contributions. Your presence and engagement are instrumental in making this congress a success. Together, let us chart new paths, embrace innovative solutions, and work towards a healthier future for all.

Welcome, and let the journey towards groundbreaking advancements in preventive medicine and public health begin!

Warm regards,
Organizing Committee
Preventive Medicine 2026

THEMES AND TOPICS

Scientific sessions at a Aging conference typically focus on the latest research, developments, and innovations in the field.

1. Epidemiology and Disease Prevention

- Surveillance and Monitoring: Methods and technologies for tracking and predicting disease outbreaks.
- Preventive Interventions: Strategies for reducing the incidence of diseases through early detection and lifestyle changes.

2. Chronic Disease Management

- Cardiovascular Health: Advances in preventing and managing heart disease.
- Cancer Prevention: Research on reducing the risk of cancer through screenings, lifestyle modifications, and other preventive measures.
- Diabetes Prevention: Innovations in preventing type 2 diabetes and managing prediabetes.

3. Vaccinology and Immunization

- Vaccine Development: Updates on new vaccines and improvements to existing ones.
- Immunization Strategies: Best practices and new approaches for increasing vaccination rates and effectiveness.

4. Maternal and Child Health

- Prenatal and Postnatal Care: Advances in care and prevention strategies for pregnant women and newborns.
- Childhood Diseases: Research on preventing and managing common childhood illnesses and conditions.

5. Environmental and Occupational Health

- Environmental Risks: Impact of environmental factors like pollution and climate change on health.
- Workplace Health: Strategies for preventing occupational diseases and promoting health in the workplace.

6. Behavioral and Lifestyle Medicine

- Healthy Lifestyle Promotion: Research on effective interventions for promoting healthy behaviors, including diet, exercise, and smoking cessation.
- Behavioral Interventions: Techniques and outcomes of behavioral change programs.

THEMES AND TOPICS

Scientific sessions at a Aging conference typically focus on the latest research, developments, and innovations in the field.

7. Public Health Policy and Systems

- Health Policy Innovations: Examination of new policies and their impact on public health.
- Health System Strengthening: Approaches to improving health systems and ensuring equitable access to care.

8. Global Health Challenges

- Pandemic Preparedness: Strategies and lessons learned from recent and past pandemics.
- Global Health Equity: Research on reducing health disparities between different populations and regions.

9. Health Informatics and Technology

- Digital Health Tools: Use of technology like health apps, telemedicine, and electronic health records in preventive care.
- Big Data in Public Health: Utilizing large datasets to identify trends and improve public health interventions.

10. Nutrition and Metabolic Health

- Nutritional Interventions: Research on how diet influences health and disease prevention.
- Metabolic Disorders: Advances in preventing and managing metabolic conditions such as obesity and metabolic syndrome.

11. Aging and Geriatrics

- Aging Populations: Strategies for promoting healthy aging and managing age-related health issues.
- Geriatric Health: Research on preventive measures specific to older adults.

12. Innovations and Emerging Research

- New Technologies: Cutting-edge research and technologies that could impact preventive medicine and public health.
- Emerging Trends: Latest findings and future directions in the field.

13. Implementation Science

- Evidence-Based Practices: How to effectively implement research findings into public health practice.
- Program Evaluation: Assessing the effectiveness of preventive health programs and interventions.

14. Case Studies and Practical Applications

- Successful Programs: Case studies of successful preventive health programs and their impact.
- Lessons Learned: Key takeaways and practical insights from real-world applications of preventive strategies.

AGENDA

JULY 20-21, 2026
MONDAY & TUESDAY
08:00 - 18:00

08:00-09:00	REGISTRATIONS	Starts with a registration and with welcome kits and badges provided. .
09:00-09:15	OPENING CEREMONY	Officially starts at 9:00 AM with remarks from the organizing committee and keynote introductions.
09:15-10:45	KEYNOTE SESSIONS	Held each morning with international experts addressing the latest advances in Preventive Medicine and Public Health.
10:45-11:05	COFFEE BREAK	Scheduled mid-morning for networking and refreshments.
11:05-13:00	KEYNOTE SESSIONS	Held each morning with international experts addressing the latest advances in Preventive Medicine and Public Health.
13:00-13:45	LUNCH AND NETWORKING	A lunch break Provided daily with options for all dietary preferences. before the afternoon activities.
13:45-16:00	SPEAKER SESSIONS	Parallel sessions focused on latest research breakthroughs, cutting-edge techniques in advances in preventive medicine and public health
16:00-16:20	NETWORKING AND REFRESHMENTS	Casual gathering over coffee and light snacks , ideal for professional connections.
16:20-18:00	SPEAKER AND POSTER SESSIONS	Speaker and Poster Sessions throughout both days, with author Q&A sessions during designated hours.

CLOSING CEREMONY AND PANEL DISCUSSIONS

KEY FACTS

25+

Interactive Sessions

10+

Keynote Speakers

50+

Innovative Featured Speakers

5+

Workshops

20+

HOURS OF NETWORKING EVENTS

B2B Meetings

Worldclass Exhibitions

“The aims and objectives of this unique conference are to bring together researchers in healthcare to present and discuss the most recent developments in these fields all over the world”.

Sponsorship Opportunities:

- Reach your target market with exclusive packages
- Promote brand recognition through high visibility
- Communicate directly with influential decision makers
- Provide solutions to technology challenges Source new products
- Leverage these benefits to achieve returns on your marketing dollars
- Reach a High Qualified Target Audience with this Strategic Opportunity!

Event Highlights:

- 25+ Interactive Sessions
- 5+ Workshops
- 30+ Hours of Networking Events
- 15+ Keynote Speakers
- Participants from Industry & Academia (50:50)
- 50+ Innovative Featured Speakers
- B2B Meetings
- World-class Exhibitions

About SCHOLARS CONFERENCES

“Accelerating the Cutting-Edge Scientific Research into Success by Bringing People Together”

Who We Are

Scholars Conferences is a global leader in producing high quality Conferences, Meetings, Workshops, Symposia and, Webinars in all major fields of Pharma, Healthcare, Science, Technology and Medicine.

Scholars Conferences endeavors to disseminate the scientific knowledge and research through its Scientific Conferences and Meetings. Scholars Conferences is currently organizing International Conferences, Meetings, Workshops, Symposia and, Webinars with a main theme of “Accelerating the Cutting-Edge Scientific Research into Success by Bringing People Together”.

WHY CHOOSE US?

Why does a Scholars Conferences stand out from other scientific meetings? Our meetings attract an exclusive number of audience who have a narrow concentration within a specialized field. We create a platform for informal, workshop style forums delivering a more intense scientific experience unlike other larger style conferences.

OUR AIM

We focus on bringing a much-needed level of efficiency and quality standards in the way we service our clients, thus building lasting partnerships-based quality, innovation, and commitment to abide by our deeply rooted core values.

OUR VISION

We are a truly professional group of individuals, striving hard to maintain and improve the quality of execution of our services. Our people constituting our team are our key assets.

OUR MISSION

Lambda Research Group strives to become internationally renowned for providing meetings of outstanding scientific quality, bringing together smaller interest groups to create informal and workshop style interactions, bridging a gap in the scientific conference community.

UNIQUE FEATURES SCHOLARS CONFERENCES

“DISCOVER THE POWER OF NETWORKING”

Pursue Innovations

We work on pursuing the spread of new knowledge to the students researchers, Scientists, academicians, research laboratories by sharing a common platform. This will facilitate the technological advancements that transform the globe.

Real Networking

Focus on professional aspect of networking which will further boosts the professional confidence, leads to the exchange of ideas, helps you meet people at all professional levels, exchange of ideas. This will nurture and create more visibility for different fields of budding researchers in their career path.

Explore the Knowledge

Present, share an explore the knowledge and/or completely different areas of study. We provide ways to discuss with the new faces one to one about their research they are working on which will further enhance on their own work. Presenting makes the presenter more confident and new perspectives towards the project in new doorways.

Transform the Science

Discussing on latest research with worldwide speakers and delegates from various fields will bring the most gradual and progressive developments in transforming the science in the field of medical, clinical, pharma and engineering.
