Welcome Message

Theme: Empowering Hearts, Empowering Lives: Shaping the Future of Cardiovascular Health

It is my pleasure to welcome colleagues from across the cardiovascular community to the 11th World Heart Congress, taking place on 15–16 March 2027 in London, UK.

This year's theme, "Empowering Hearts, Empowering Lives: Shaping the Future of Cardiovascular Health," speaks directly to the moment our specialty finds itself in. From advanced imaging and structural interventions to AI-driven diagnostics, cardio-oncology, and precision medicine, cardiovascular care is evolving faster than ever, and this congress exists to help translate that evolution into better outcomes at the bedside.

Building on previous editions, WHC 2027 brings together consultants, researchers, allied specialists, and industry partners for two days of keynote presentations, scientific sessions, and case discussions spanning the full breadth of modern cardiology, from heart failure and electrophysiology to preventive and population-level cardiovascular health.

Whether you're presenting original research, chairing a session, or simply looking to sharpen your clinical thinking alongside colleagues from around the world, I hope you find the program both intellectually stimulating and practically valuable.
I look forward to welcoming you to London.

About Scholars Conferences

Theme: Empowering Hearts, Empowering Lives: Shaping the Future of Cardiovascular Health

"Accelerating the Cutting-Edge Scientific Research into Success by Bringing People Together"

Who We Are

Scholars Conferences is a global leader in producing high quality Conferences, Meetings, Workshops, Symposia and Webinars in all major fields of Pharma, Healthcare, Science, Technology and Medicine.

Scholars Conferences endeavors to disseminate the scientific knowledge and research through its Scientific Conferences and Meetings. Scholars Conferences is currently organizing International Conferences across the globe.

Why Choose Us?

Why does Scholars Conferences stand out from other scientific meetings? Our meetings attract an exclusive number of audience who have a narrow concentration within a specialized field. We create a platform for informal, workshop style forums delivering a more intense scientific experience unlike other larger style conferences.

Our Aim

We focus on bringing a much-needed level of efficiency and quality standards in the way we service our clients, thus building lasting partnerships based on quality, innovation, and commitment to abide by our deeply rooted core values.

Our Vision

We are a truly professional group of individuals, striving hard to maintain and improve the quality of execution of our services. Our people constituting our team are our key assets.

Our Mission

Scholars Conferences strives to become internationally renowned for providing meetings of outstanding scientific quality, bringing together smaller interest groups to create informal and workshop style interactions, bridging a gap in the scientific conference community.

Unique Features

"Discover the Power of Networking"

01

Explore the Knowledge

Present, share and explore the knowledge and/or completely different areas of study. We provide ways to discuss with the new faces one to one about their research they are working on, which will further enhance their own work. Presenting makes the presenter more confident and opens new perspectives on the project.

02

Transform the Science

Discussing the latest research with worldwide speakers and delegates from various fields will bring the most gradual and progressive developments in transforming the science in the field of medical, clinical, pharma and engineering.

03

Pursue Innovations

We work on pursuing the spread of new knowledge to students, researchers, scientists, academicians and research laboratories by sharing a common platform. This will facilitate the technological advancements that transform the globe.

04

Real Networking

Focus on the professional aspect of networking, which further boosts professional confidence, leads to the exchange of ideas, and helps you meet people at all professional levels. This nurtures and creates more visibility for budding researchers in their career path.
