ABOUT CONFERENCE

THEME: ADVANCING RESEARCH, ENHANCING PATIENT OUTCOMES

It is with great pleasure and anticipation that we welcome you to the International Congress on Advances in Hematology and Vascular Disorders (IHVD Congress 2027), taking place on March 15-16, 2027, in the serene and culturally vibrant island of London, UK.

IHVD Congress 2027 is a leading global forum advancing science, clinical innovation, and collaboration in hematology and vascular medicine. It brings together top experts, researchers, clinicians, and industry leaders from around the world. The event fosters meaningful dialogue aimed at shaping the future of blood and vascular health.

This year's congress will spotlight key advances in hematologic and vascular science, including new diagnostics and innovative therapies. It will address global priorities like equitable care and precision medicine while highlighting progress in cellular research and treatments for rare and common blood disorders. The program also underscores integrated care and global strategies to enhance blood and vascular health.

Participants will benefit from impactful keynotes, engaging panels, hands-on workshops, and strong networking opportunities. The congress enables attendees to share research, exchange ideas, and influence the future of hematology and vascular care. With its focus on innovation and patient-centered approaches, IHVD Congress 2026 drives progress across blood and vascular science.

We look forward to welcoming you to London, a global hub of scientific discovery, medical innovation, and international collaboration. Together, we will work toward a future of improved diagnosis, treatment, and outcomes for individuals worldwide.

Welcome to IHVD Congress 2027 — where science, innovation, and global collaboration unite to advance blood and vascular health.

About SCHOLARS CONFERENCES

"Accelerating the Cutting-Edge Scientific Research into Success by Bringing People Together"

Who We Are

Scholars Conferences is a global leader in producing high quality Conferences, Meetings, Workshops, Symposia and, Webinars in all major fields of Pharma, Healthcare, Science, Technology and Medicine.

Scholars Conferences endeavors to disseminate the scientific knowledge and research through its Scientific Conferences and Meetings. Scholars Conferences is currently organizing International Conferences, Meetings, Workshops, Symposia and, Webinars with a main theme of "Accelerating the Cutting-Edge Scientific Research into Success by Bringing People Together".

WHY CHOOSE US?

Why does a Scholars Conferences stand out from other scientific meetings? Our meetings attract an exclusive number of audience who have a narrow concentration within a specialized field. We create a platform for informal, workshop style forums delivering a more intense scientific experience unlike other larger style conferences.

OUR AIM

We focus on bringing a much-needed level of efficiency and quality standards in the way we service our clients, thus building lasting partnerships-based quality, innovation, and commitment to abide by our deeply rooted core values.

OUR VISION

We are a truly professional group of individuals, striving hard to maintain and improve the quality of execution of our services. Our people constituting our team are our key assets.

OUR MISSION

Scholars Conferences strives to become internationally renowned for providing meetings of outstanding scientific quality, bringing together smaller interest groups to create informal and workshop style interactions, bridging a gap in the scientific conference community.

"DISCOVER THE POWER OF NETWORKING"

Pursue Innovations

01

We work on pursuing the spread of new knowledgetothe students researchers, Scientists, academicians, research laboratories by sharing a common platform. This willfacilitate the technological advancements that transform theglobe.

Real Networking

02

Focus on professional aspect of networking which willfurther boosts the professional confidence, leads to the exchangeof ideas, helps you meet people at all professional levels, exchange of ideas. This will nurture and create morevisibility for different fields of budding researchers in their careerpath.

Explore the Knowledge

03

Present, share an explorethe knowledge and/or completely different areas of study. We provide ways to discusswiththenew faces one to one about their research they are workingonwhich will further enhance on their own work. Presentingmakesthe presenter more confident and new perspectives towardsthe project in new doorways.

Transform the Science

04

Discussing on latest research with worldwide speakersand delegates from various fields will bring the most gradual and progressive developments in transforming the science in the field of medical, clinical, pharma and engineering.
