NeuroForum 2022

Scholars International Conference and Exhibition on

Neuroscience and Brain Disorders Forum

May 23-24, 2022 |Online| Virtual

Virtual. | Hybrid. | Live.

- **10+ KEYNOTE SPEAKERS**
- **50+ FEATURED SPEAKERS**
- **25+ INTERACTIVE SESSIONS**

- **20+ HOURS OF NETWORKING**
- **100+ PARTICIPANTS**
- **05+ WORKSHOPS**

- **WORLDCLASS EXHIBITIONS**
- **PROFESSIONAL WORLDVIEW**
- **B2B MEETING**

Host: Kevin Peter
Program Manager | NeuroForum 2022

TENTATIVE PROGRAM

May 23-24, 2022   **09:00-18:00**

KEYNOTE FORUM

David Rowland, Independent Researcher,
Member of Canadian Association for Neuroscience, Canada
Title: Differential Diagnosis of Autism: A Causal Analysis

Ken Ware, NeuroPhysics Therapy Institute and Research Centre, Australia
Title: 'Noisy Inputs Always Infers Noisy Outputs': Do the Net Results of Sensory Systems Deprivation Deficits Create the Initial Conditions for the Emergence of Various Classifications of Motor Neuron Diseases?

Marat Akhmet, Middle East Technical University, Turkey
Title: Will be updated soon

Sonia Millán Pérez, Hospital Universitario San Ignacio. Bogotá, Colombia
Title: Clinical and Neurophysiologic characteristics of patients with Guillain-Barré syndrome in Bogotá, Colombia Between 2009 and 2019.

Sheng Chen, Shanghai Jiaotong University School of Medicine, China
Title: Auto Antibody-Mediated Movement Disorders

Alain L Fymat, International Institute of Medicine and Science Rancho Mirage, USA
Title: Will Update soon

Ali Al-Nuaimi,University of Plymouth, UK
Title: Electroencephalogram Based Biomarkers for Detection of Alzheimer's Disease

Uqbah Iqbal, Universiti Kebangsaan, Malaysia
Title: Will be updated soon

https://scholarsconferences.com/neuroscience/

May 23-24, 2022   **09:00-18:00**

KEYNOTE FORUM

Andrea Small Howard, Identification of minimum essential therapeutic mixtures from Cannabis plant extracts by screening in cell and animal models of Parkinson's disease, United States
Title: Differential Diagnosis of Autism: A Causal Analysis

Christiano Santos, University of Mississippi Medical Center, USA
Title: Will be updated soon

SPEAKER FORUM

Sanja Kovacic, General Hospital Zabok and Hospital of Croatian Veterans, Croatia
Title: Parkinson's disease and acute pancreatitis

Meghna Rynjah Anand, King's College London, United Kingdom
Title: Nootropic Medicinal Plants: A novel approach in the treatment of neurodegenerative diseases

Berra Incearap, Ulm University, Germany
Title: Autism-associated SHANK3 mutations impair maturation of neuromuscular junctions and striated muscles

Thi Dang Mai, Hue University of Medicine and Pharmacy, Vietnam
Title: Cerebral Salt-Wasting Syndrome And Elevated Brain Natriuretic Peptide Levels Caused by Minor Traumatic Brain Injury: A case report

Susana Cristina Lerosa Telles, Encaminho, Brazil
Title: COVID-19 sequelae or associated disease

CarolAnn Peterson, Consultant/former Professor, United States
Title: The intersections of traumatic brain injury, strangulation and domestic violence

Gabriele SARETZKI, Newcastle University, united kingdom
Title: Will Update soon

May 23-24, 2022   **09:00-18:00**

SPEAKER FORUM

Alican Bulut, Essex Partnership University NHS Foundation Trust, United Kingdom
Title: From the lab to the clinic: Harnessing neuroscience and technological advances to enable disorder diagnosis during early infancy

Christy Hom, University of California, Irvine, United States
Title: Executive function decline and regional amyloid-? accumulation due to Alzheimer Disease in Adults with Down Syndrome

Yong Hu, The university of Hong Kong, Hong Kong
Title: Brain Computer Interface with Soft Robot Glove for Post-stroke rehabilitation

Mark Cline, Virginia Polytechnic Institute and State University, United States
Title: Early-life exposure to stressors and epigenetic hypothalamic changes in bird models

Martin Gizzi, Hackensack Meridian School of Medicine, United States
Title: The Epidemiology of Intracerebral Hemorrhage: Incidence and Mortality Trends in the US from 1990 to 2017

Alessandra Princivalle, Sheffield Hallam University, United Kingdom,
Title: The Sodium channels B4 subunits are dysregulated in temporal lobe epilepsy drug-resistant patients

Monika Myszczynska, The University of Sheffield, United Kingdom
Title: Uncovering new targets tend therapies for amyotrophic lateral sclerosis (ALS) using artificial intelligence (AI) approaches.

May 23-24, 2022   **09:00-18:00**

E-Poster

Emily L Ward, University of London, UK
Title: Jasmonic acid and methyl jasmonate attenuate cAMP-driven neuroinflammation via crosstalk with the prostaglandin E2/receptor EP2 signaling axis

Olga Osokina, Kyiv Medical University, Kyiv, Ukraine
Title: Evoked Potentials in Patients with First Psychotic Episode
